HENSLEY & SAILOR,
MONTGOMERY CITY, MO.

More About the Mule.

A Monroe county man who
knows all about mules, asserts that
the reason a Missouri mule will
sell for more than a western mule
of the same size and quality is be-
cause the Missouri animal is so
much more docile. In this state
the mule is accustomed to human
company from the time he is foal-
ed to the time he is sent to the
Southern states or cities, and is
easily handled by his new owner.
The Western mule on the other
hand, grows up on a big ranch,
seldom comes in contact with men
and becomes so timid that he is a
hard proposition to subdue and
handle when sold for service. For
this reason the buyers will pay
much more money for a Missouri
mule which is docile everywhere
except the business end of its hind
leg.—Paris Appeal.

lic schools, and Miss Nell Thur-
mond were married at the home of
the bride's parents, Hon. and Mrs.
N. D. Thurmond, in this city,

Maryville, brother-in-law of the
groom, said the ceremony.

The wedding was attended by
relatives and a very few close
friends of the young people. The
wedding music was by Mrs. W. F.
Russell, and the flower girls were

Word and Works Magazine.

Rev. I. R. Hicks, the noted
weather forecaster of St. Louis,
Mo., has for eighteen years past
edited a monthly journal of nation-
al reputation Word and Works.
We have received Word and
Works at this office and can testi-
fy to its value as a family month-
ly. Prof. Hicks has just decided
to change his family monthly to
magazine form and with the Oct-
ober number the monthly will be
a beautiful magazine profusely
illustrated with half-tone engrav-
ings. One of the early fall num-
bers of this magazine will contain
the weather forecasts for the first
six months of 1906. The January
1906, number will contain the
weather forecasts for the second
six months of 1906. These two
numbers of the magazine will take
the place of the Hicks Almanac,
which will be discontinued. The
matter that has heretofore been
published in the Hicks Almanac
each year will now be found in the
magazine much more. The price
of the Word and Works Magazine
is 10 cents per copy or \$1.00 per
year. Send 10 cents for a copy of

Cream Beats Butter.

According to the Albany Led-
ger, "it was a long time before
the farmers of Gentry county found
out that the cow would produce
money as well as milk.

"Beginning early this spring, a
few farmers began to market cream
instead of 'fresh country butter.'
The buyers here prepared to han-
dle it, but it was slow coming in.
The way the business has in-
creased is surprising. From a
few the number of farmers who
are bringing in cream daily has
increased probably to the hundred
mark. Every day the express load
of cream cans is larger than the
day before.

"The citizen of the town who for
years has had to smell around the
grocer's back room to find a sup-
ply of good butter will soon be re-
lieved of his trouble. At the present
rate of increase the time will
soon be here when he will buy
creamery butter because there will
be no other on the market. The
farmer will quit making butter
just as soon as he learns that he
can do better by selling the cream.

"The worst feature about it is
the fact that the actual cost of
the creamery butter is the two
cents on the railroad, when the
cream is shipped and when the
butter is shipped back. This
would be saved by a home cream-
ery, but there is no remedy.
There is not one small town in a
hundred that can maintain a
creamery. Everybody has the
idea deeply impressed that it is
better to deal away from home."

Teachers Examination.

The next regular examination of
teachers will be held at Montgom-
ery City, Aug. 25th and 26th 1905.
Respectfully,
J. W. DAVIS.
